State Management:	Redux, Redux Toolkit, Context API, Zustand, Recoil
Styling:	Tailwind CSS, Bootstrap, Material-UI, Styled Components, CSS Modules
Testing:	Jest, React Testing Library, Vitest
Build Tools:	Webpack, Vite, Parcel
Design Tools:	Figma, Adobe XD, Sketch, Adobe Photoshop
Version Control:	Git, GitHub, GitLab
APIs:	REST APIs, GraphQL
Best Practices:	Responsive Design, Mobile-First, WCAG 2.1, Performance Optimization

PROFESSIONAL EXPERIENCE

Frontend Developer | Creative Digital Agency | June 2023 - Present

- Develop responsive web applications and interactive user interfaces using React and TypeScript
- Collaborate with designers to implement pixel-perfect UI designs from Figma mockups
- Build reusable component libraries following atomic design principles
- Optimize web performance achieving 95+ Lighthouse scores across all metrics
- Implement state management solutions using Redux and Context API
- Write unit and integration tests with Jest and React Testing Library

Junior Frontend Developer | WebDesign Studio | June 2022 - May 2023

- Built responsive websites and landing pages using HTML, CSS, JavaScript, and React
- Implemented CSS animations and transitions to enhance user engagement
- Integrated REST APIs and managed application state
- Ensured cross-browser compatibility and mobile responsiveness
- Participated in code reviews and followed agile development practices

Frontend Development Intern | StartupHub Inc. | July 2021 - September 2021

- Assisted in building UI components and implementing designs in React
- Converted design mockups into functional frontend code
- Learned best practices for component architecture and state management

EDUCATION

Bachelor of Science in Web Development and Design

British Columbia Institute of Technology | September 2019 - May 2023 | GPA: 3.65/4.0

Honors: Dean's List, Best UI/UX Project Award

CERTIFICATIONS

- Meta Frontend Developer Professional Certificate
- freeCodeCamp Responsive Web Design Certification
- Google UX Design Professional Certificate

KEY PROJECTS

- **E-Commerce Platform:** Built frontend for e-commerce platform using React and Redux, serving 10K+ daily users with optimized performance and smooth checkout flow
- **Design System:** Created comprehensive design system and component library used across 5+ projects, improving development efficiency by 40%
- **Progressive Web App:** Developed PWA with offline-first capabilities, service workers, and push notifications
